Issue: #736

March, 2010

### Dear Howie,

Well folks, we hope this winter has been as busy (in an outdoorsy kind of way) as it has been for us! We've had great ice climbing, big storms, some warm days, and just a tremendous amount of fun. Its rare, but we love when people call the office and say: "I want to do something COOL this weekend!" With no real preference for skiing or climbing or a combination of the two in mind. We are psyched to take these adventurous souls out of the box! It is March now, and this is a fun time of year because though some things, like ice, may be coming to an end soon, other things like spring skiing, wintery mountaineering (see photo above!), and rock climbing are starting to be on the horizon.

But don't forget! The opportunity for ice and pow and all things wintery in general are still in full swing! Join us!

We love wearing our OR guides jackets!

We love using our new ice equipment on
